3. We are committed to the principles of Academic and Intellectual Freedom, Creativity and innovation and pursuit of excellence.
4. The strategy being Learn, Discover, Engage, Access and Practice in the profession .e.

ABOUT US

St.Peter's College of Engineering and Technology, Chennai, is a reputed institution approved by COA, New Delhi and affiliated to Anna University, Chennai. The Institution offers B.Arch program with an annual intake of 80 students.

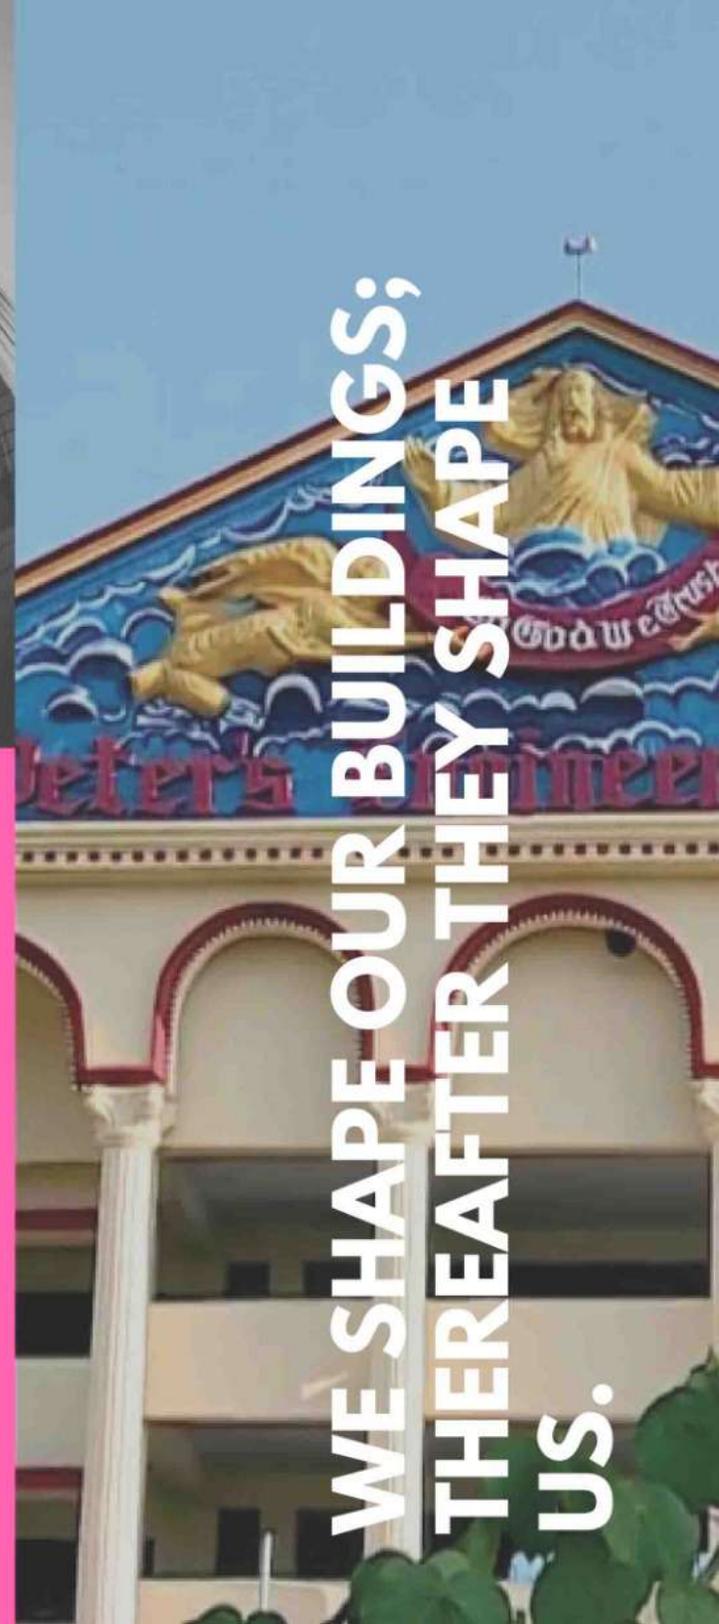

VISION & MISSION

OUR VISION

The college will strive towards creating architects with a passion for excellence in Architecture.

OUR MISSION

The college will strive towards creating architects with a passion for excellence in Architecture.

WE SHAPE OUR BUILDINGS;
THEREAFTER THEY SHAPE
US.

WHO WE ARE

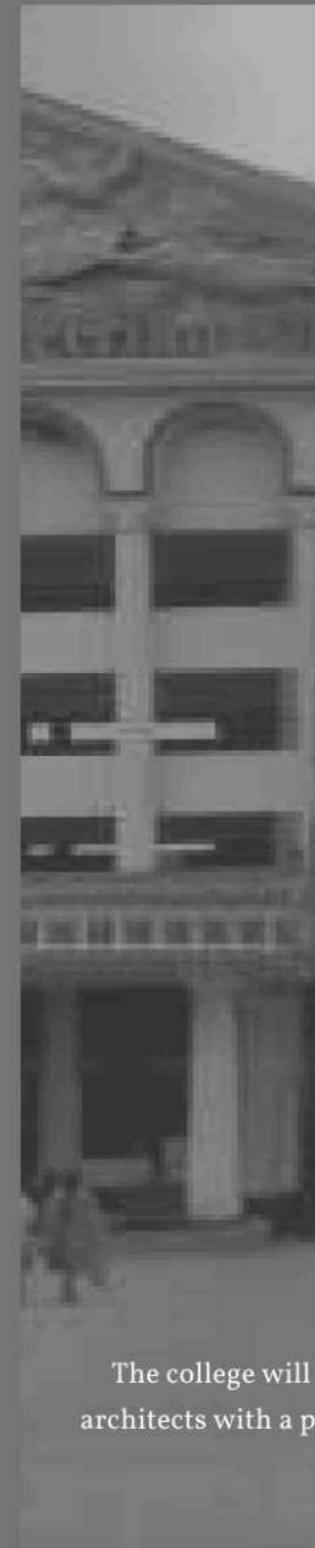

Today we find that Architecture has become overwhelmingly pervasive. While many educational institutions have shifted focus and become specialty providers for the construction industry, a few institutions continue to emphasize the pristine science underlying the diverse aspects of architecture which is design and detailing. This is the single most important attribute of the education offered here. Our department has remained true to the vision on which it was founded. The Department of Architecture is a dynamic academic institution that has made, and will make meaningful contributions to society through discourse on the design, quality and sustainability of the culture and the practice of architecture.
